

Team Involvement in Demonstration

Date 30 September 2026

Team ID SWTID-2026-9157

Project Name Cricket Player Performance Tracking Application (CRICKSTATS)

Maximum Marks 1 Mark

Team Involvement in Demonstration:

This document records the active participation and roles of each team member during the CRICKSTATS project demonstration. Each member presents the Salesforce component assigned to them, while the Team Lead coordinates the overall demonstration and explains how the different components work together.

S.No	Team Member Name	Role in Demo	Section Presented	Contribution Summary	Participation (Active / Passive)
1	Aysha Malhan	Team Lead	Introduction, Project Overview & Roll-up Summary	Introduces CRICKSTATS, coordinates the team, explains the overall workflow, demonstrates the Roll-up Summary, and connects all Salesforce components.	Active
2	Alina Harmin Z	Member	Player Object & Match Performance Object	Explains and demonstrates the main objects used to store player information and match performance data.	Active
3	Humyra Saimah K	Member	Custom Tabs & Lightning App	Demonstrates the custom tabs and Lightning App used for navigation and access to the CRICKSTATS application.	Active
4	Afeefa Thasneem F	Member	Custom Fields	Explains the custom fields created for the Player and Match Performance objects and their use in storing cricket performance details.	Active
5	Ifra Sameen	Member	Screen Flow & Home Page Flow	Demonstrates the Screen Flow and explains how the Flow is made available on the Home Page for easier user interaction.	Active

Team Coordination Notes:

Aspect	Details
Team Leader / Coordinator	Aysha Malhan coordinates the overall CRICKSTATS demonstration and ensures that each member presents their assigned Salesforce component.
Overall Team Coordination Rating (1-5)	5
Any issues during demo	Minor coordination or Salesforce configuration issues may occur while moving between objects, tabs, and Flows during the demonstration.
How issues were resolved	The relevant team member checks the component, discusses the issue with the team, and verifies the configuration before continuing the demonstration.
